Professional Summary

Computer Engineering student currently pursuing a Bachelor's degree in Computer Engineering at Dr. D. Y. Patil Technical Campus, Pune. Skilled in Java, SQL, Spring Boot and web technologies with hands-on experience in software development, web applications, and project-based learning. Strong understanding of object-oriented programming, data structures, Algorithm, and problem-solving

Education

Dr. D. Y. Patil Technical Campus, <i>Pune Bachelor of Engineering in Computer Engineering</i>	2023-2027 CGPA-9.00
Satpuda Convent Higher Secondary College <i>Higher Secondary Certificate (HSC)</i>	2021– 2023 60.17%
Swami Vivkanand Rashtra Dynapeeth Jalgaon(jamod) <i>Secondary School Certificate (SSC)</i>	2021 83.16%

Technical Skills

- Programming Languages: Java, Python
- Web Technologies: HTML, CSS, JavaScript
- Databases: SQL, MySQL, MongoDB
- Tools: Git, GitHub, VS Code, Overleaf
- Core Concepts: Object-Oriented Programming, Data Structures & Algorithm, Collection Framework, Exception Handling, System design, Operating System .

Projects

Secure Document Management System *Java, Spring Boot, MySQL, JWT, AES Encryption, HTML/CSS*

- Developed a console-based application using Java and Spring Boot.
 - A secure enterprise document storage system built using Spring Boot.
 - The application allows user to upload, manage and access document securely
 - JWT authentication, AES encryption and Database Connection
-

- The **ATS Resume Analyzer Pro** is a modern, single-page web application designed to bridge the gap between job seekers and automated hiring systems.
- By leveraging Generative AI, the application acts as a strict, virtual "Technical Recruiter." Users can paste a target job description alongside their resume text.
- The AI then processes the contextual meaning of both texts—moving beyond simple word-matching to understand actual experience and skill equivalencies—and returns a comprehensive compatibility report.

Internship and Training

Anudip Foundation

June 2025– Aug 2025

Training in Core Java, Advanced Java, MySQL/SQL Database and Soft Skills

- Developed applications using Advance Java, and SQL.
- Hands-on practice with Java collections,JDBC and File handling

Training in Java DSA, HTML/CSS/JS, Java & ReactJS

January 2026- March 2026

- Developed web applications using HTML, CSS, JavaScript, and Firebase.
- Use ReactJS for Better Designing and Java for backend and Database Connectivity

Achievements and Certifications

- Java Programming– Data Fair
- Green Skill and AI– edunet
- Java Training Certificate– Anudip Foundation
- MongoDB and Campus Awareness– GreeksforGreeks
- Selected in SIH Internal Hackatho

Strengths

- Strong logical and problem-solving skills
- Quick learner with positive attitude
- Good team collaboration and communication
